

# International Conference on Application-Specific Systems, Architectures and Processors 1996: Proceedings : August 19-21, 1996 Chicago, Illinois

These papers address state-of-the-art challenges on topics such as parallel fractal compression, finite element analysis, residue arithmetic, cordic architectures, floating point multiply-accumulate and finite field multiplication, discrete wavelet transform, motion estimate, partitioning and mappin

International Conference on Application-Specific Systems, Architectures and Processors 1996: Proceedings : August 19-21, 1996 Chicago, Illinois. August 19 - 21, 1996. Chicago, Illinois The papers in this book comprise the proceedings of the meeting mentioned on the cover and title International Conference on. Application-Specific Systems, Architectures and Processors - 1 1996. International Conference on Application-Specific Systems, Architectures and Processors 1996: Proceedings : August 19-21, 1996 Chicago, Illinois. by n/a. Abstract: The ALPHA language, based on systems of affine recurrence equations over polyhedral Published in: Application Specific Systems, Architectures and Processors, 1996. Proceedings of International Conference on. Article #: . Date of Conference: 19-21 Aug. 1996 Conference Location: Chicago, IL, USA, USA. International Conference on Application-Specific Systems, Architectures and Processors 1996: Proceedings : August 19-21, 1996 Chicago, Illinois by. Binding: Proceedings of International Conference on. Article #: . Date of Conference: 19-21 Aug. 1996 Published in: Application Specific Systems, Architectures and Processors, 1996. ASAP 96. Conference Location: Chicago, IL, USA, USA. Design of efficient finite field arithmetic architectures is very important and of great Published in: Application Specific Systems, Architectures and Processors, 1996. ASAP 96. Proceedings of International Conference on. Article #: . Date of Conference: 19-21 Aug. 1996 Conference Location: Chicago, IL, USA, USA. In this paper, low power architecture which can support the real time motion estimation of Published in: Application Specific Systems, Architectures and Processors, 1996. ASAP 96. Proceedings of International Conference on. Article #: . Date of Conference: 19-21 Aug. 1996 Conference Location: Chicago, IL, USA, USA. Radix-4 vectoring CORDIC algorithm and architectures. Abstract: In this Published in: Application Specific Systems, Architectures and Processors, 1996. ASAP 96. Proceedings of International Conference on. Article #: . Date of Conference: 19-21 Aug. 1996. Date Added to Conference Location: Chicago, IL, USA, USA. Kestrel is a programmable linear systolic array processor designed for sequence analysis. Published in: Application Specific Systems, Architectures and Processors, 1996. Proceedings of International Conference on. Article #: . Date of Conference: 19-21 Aug. 1996 Conference Location: Chicago, IL, USA, USA. International Conference on Application-Specific Systems, Architectures and Processors 1996: Proceedings : August 19-21, 1996 Chicago, Illinois. IEEE. In-system-programmable, SRAM-based Field Programmable Gate Arrays (FPGAs) can be used to Published in: Application Specific Systems, Architectures and Processors, 1996. Proceedings of International Conference on. Article #: . Date of Conference: 19-21 Aug. 1996 Conference Location: Chicago, IL, USA, USA. Buy a cheap copy of International Conference on book by Jose Fortes. and Processors 1996: Proceedings : August 19-21, 1996 Chicago,

Illinois International Conference on Application-Specific Systems, Architectures and Processors 1996: Proceedings : August 19-21, 1996 Chicago, Illinois.
