

Strawberry Fields: Central Parks Memorial to John Lennon

Strawberry Fields is one of the most visited spots in Central Park and one of the most popular tourist attractions in New York City. This keepsake volume is a celebration of the 2.5-acre teardrop-shaped living memorial to John Lennons life and work. The year 2010 marks the 25th anniversary of its dedication, as well as what would have been Lennons 70th birthday. Located in the park directly across the street from the Dakota, the building where John and Yoko lived for several years before his untimely death, Strawberry Fields was originally conceived as a peace garden. Yoko invited the entire world to donate trees, shrubs, and stones to fill this parcel of land, and today, the garden flourishes with contributions from 121 countries. A rich and lively patchwork of text and imagery will tell the story of John and Yokus love affair with the park and of the creation of this unique corner of the park through an unprecedented collaborative effort between Yoko Ono, the Central Park Conservancy, and city officials.
