

A Gil Blas in California

It seems extraordinary that a story of American life, and especially so competently written a tale of so romantic a period in American expansion as the California gold-rush of 49 should have been lost to American readers so long. But it has been. Californie appeared shortly after Dumas had reached the zenith of his career. Le Comte de Monte Cristo was far behind; Le Vicomte de Bragelonne was fresh from his fecund mind; so, too, were La Tulipe noire and Olympe de Clèves. Ahead were Les Blancs et les Bleus, Les Louves de Machecoul, and -- his ruinous newspaper ventures in Paris. One may speculate to no end and with little profit on the circumstances surrounding the writing of Californie.
